#### Chapter 74. Curriculum Requirements

##### Subchapter C. Other Provisions

###### §74.28. Students with Dyslexia and Related Disorders.

- (a) The board of trustees of a school district must ensure that procedures for identifying a student with dyslexia or a related disorder and for providing appropriate instructional services to the student are implemented in the district. These procedures will be monitored by the Texas Education Agency with on-site visits conducted as appropriate.
- (b) A school district's procedures must be implemented according to the State Board of Education (SBOE) approved strategies for screening and techniques for treating dyslexia and related disorders. The strategies and techniques are described in "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders," a set of flexible guidelines for local districts that may be modified by SBOE only with broad-based dialogue that includes input from educators and professionals in the field of reading and dyslexia and related disorders from across the state. Screening should only be done by individuals/professionals who are trained to assess students for dyslexia and related disorders.
- (c) A school district shall purchase a reading program or develop its own reading program for students with dyslexia and related disorders that is aligned with the descriptors found in "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders." Teachers who screen and treat these students must be trained in instructional strategies which utilize individualized, intensive, multisensory, phonetic methods and a variety of writing and spelling components described in "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders." The professional development activities specified by each district and/or campus planning and decision making committee shall include these instructional strategies.
- (d) Before an identification or assessment procedure is used selectively with an individual student, the school district must notify the student's parent or guardian or another person standing in parental relation to the student.
- (e) Parents/guardians of students eligible under the Rehabilitation Act of 1973, §504, must be informed of all services and options available to the student under that federal statute.
- (f) Each school must provide each identified student access at his or her campus to instructional programs required in subsection (c) of this section and to the services of a teacher trained in dyslexia and related disorders. The school district may, with the approval of each student's parents or guardians, offer additional services at a centralized location. Such centralized services shall not preclude each student from receiving services at his or her campus.
- (g) Because early intervention is critical, a process for early identification, intervention, and support for students at risk for dyslexia and related disorders must be available in each district as outlined in "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders."
- (h) Each school district shall provide a parent education program for parents/guardians of students with dyslexia and related disorders. This program should include: awareness of characteristics of dyslexia and related disorders; information on testing and diagnosis of dyslexia; information on effective strategies for teaching dyslexic students; and awareness of information on modification, especially modifications allowed on standardized testing.
